Pro Print also does Point of Sale items for launching of products etc. along with many other print options. We follow a Standard Operating Procedure Book and are available for Audits at any time.

Pro Print attends International Trade Fairs looking for new developments both in Machinery and Packaging, allowing us to bring fresh new ideas to our clients.

Pro Print currently supports several eco friendly projects within our Factory. All our paper and board is recycled by Mpact (Mondi), with our own waste compactor on site, supplied and serviced by Mpact. All inks are vegetable based, our print presses are all alcohol free, reducing the impact on the air quality within the factory. All chemicals are removed off site for safe disposal.

Please don't hesitate to contact me should you require any samples of our work. Should you like a 'mini' tour of our factory, our website has an icon which will give you an overview of our equipment and processes. Of course you are also more than welcome to visit our factory here in Durban at any time.

Thank you again.
